

DEPARTMENT OF ENVIRONMENTAL PROTECTION & SUSTAINABILITY

Interoffice Memo

TO: Karen Ogle
Environmental Protection and Sustainability, Watershed Restoration

FROM: Thomas L. Vidmar, P.E. /signed/
Deputy Director, EPS

DATE: June 26, 2014

SUBJECT: KELLY BRANCH STREAM RESTORATION
Stormwater Management Variance
Loch Raven Watershed
EPS Project ID: M140141
Tracking Number: 03-14-1837

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. This section of the regulations allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this article would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations. This project is for 3,400 feet of stream restoration. The existing cover conditions will be re-established once the stream restoration is completed. Although the disturbed area is in excess of 5,000 square feet, there will be no increase in impervious area or runoff as a result of this project.

Please contact Robert T. Wood, Jr. of my staff at 410-887-3768 should you have any questions.
